Data
Excel (Power Query, Pivot, VBA), PostgreSQL, MongoDB, MySQL

Payments & fintech
Nymcard Platform, Onfido, PayTabs, Checkout, Lean, Dapi, MPGS

Disputes
Scheme dispute portals, evidence management, representment

RIHAN MOHAMMED

Operations & Payments Specialist · Automation & Internal Tools · Chargebacks

Results-driven Operations & Payments Specialist with 9+ years across fintech, BNPL and QSR. Proven expertise in chargeback management, end-to-end process automation and SLA governance across 40+ SME programme-manager accounts. I design and ship the internal tools my operations team runs on — desktop apps, Python automation pipelines and a private on-device AI assistant — cutting manual effort by up to 60%. Strong in cross-functional delivery, regulatory compliance (CB UAE, PCI DSS) and executive reporting across the GCC.

EXPERIENCE

Nymcard Payments Ltd
May 2023 – Present · Dubai

Operations Specialist

- **Operations & automation:** Run daily workflows and Service Desk for 40+ SME programme-manager accounts at 98% SLA compliance; Python/SQL automation cut funding-cycle time by 60% and automated recurring reconciliation.
- **Scripting:** Bulk account and card creation (Python/REST API), card-expiry termination pipelines, client dashboard onboarding and n8n scheduled reporting on PostgreSQL.
- **Chargebacks & disputes:** Lead the end-to-end chargeback process across card schemes — investigation, evidence, representment, resolution — with monthly analytics for executives.
- **Escalations & call centre:** Real-time escalations across payment flows, KYC, scheme declines and fraud alerts; escalations down 30%, NPS above 90, 98% client retention.
- **Reporting & compliance:** Daily SLA scorecards, decline reports and MMR/QBR decks (15% lift in card activation); audit controls with product, compliance and finance (CB UAE, PCI DSS), 12% better on-time releases.

KEY PROJECTS — TOOLS I BUILT

NymCard Notifier Desktop app · Mac & Windows · Python

Jira companion that pops up real-time alerts for new tickets, replies, @mentions and client incidents, and warns 30 minutes before an SLA breach. Team views for tickets with no reply for 24h+ and unassigned tickets, a monthly per-person SLA scorecard, and a free on-device AI assistant (Qwen 2.5 via llama.cpp) that suggests next steps and a draft reply from an editable ops playbook. One-click install.

Operations Bulk Run Desktop app · Python

10 bulk operations tasks — onboarding, fund loads/unloads, wallet transfers, monthly breakage, card termination — in one no-code app with pre-run validation, automatic pause/resume on network loss, and colour-coded Excel reports with a full audit history; 96 batch reports produced since July 2026.

Statements, reporting & presentations Automation

B2B Excel and cardholder PDF statements generated from raw exports; data-driven management decks and fully narrated presentation videos.

WORK TOOLS

Jira, Zendesk, Confluence, Slack, Google Workspace, MS 365

EDUCATION

Bachelor of Commerce
Business Management · 2016

LANGUAGES

English – Fluent

Hindi – Advanced (C1)

Arabic – Beginner (A1)

INTERESTS

FinTech mentoring · Community business networking · Competitive swimming (team captain)

EARLIER EXPERIENCE

Zip.co (Spotii – Buy Now Pay Later)

Feb 2021 – May 2023 · Dubai

Customer Experience Specialist

- **Merchant growth:** Managed the full lifecycle of 100+ GCC merchants, from due-diligence onboarding to checkout optimisation – 25% YoY GMV growth.
- **Disputes & risk:** BNPL chargebacks and disputes with processors and risk teams; KYC and income verification that cut fraud losses by 18% (CB AML standards).
- **Reporting & support:** Daily SLA dashboards and executive QBR decks; principal contact for merchant teams; closed 95% of Zendesk/Jira tickets within 24 hours.

Americana – KFC

Dec 2016 – Nov 2019 · Dubai

Account Coordinator

- **Partner management:** Delivery-aggregator and corporate catering accounts at 95% order-accuracy and on-time SLAs across three outlets.
- **Reviews & analytics:** Monthly partner business reviews and weekly dashboards (traffic, AOV, repeat rate); pricing recommendations that improved gross margin.
- **Process improvement:** CRM feedback loop that lifted satisfaction by 15%; trained 30 staff on bundling for a 9% uplift in average order value.

PERSONAL PROJECT

Billeaf – billing & POS for small merchants JavaScript · Electron · SQLite

Built end to end to learn desktop software: products, customers, invoicing and daily totals with an offline local database, a free trial with licence activation, and a guided training mode for new staff.
